

*Starting to implement LD 2014/33/EU
Are we ready?*

Christian de Mas Latrie,
Chairman of the ELA Codes & Standards Committee

APRIL 20th 2016: A new era for the Lift industry

Repeal of the LD 95/16/EC

Enforcement of LD 2014/33/EU

New obligations for

Member-states

Notified Bodies

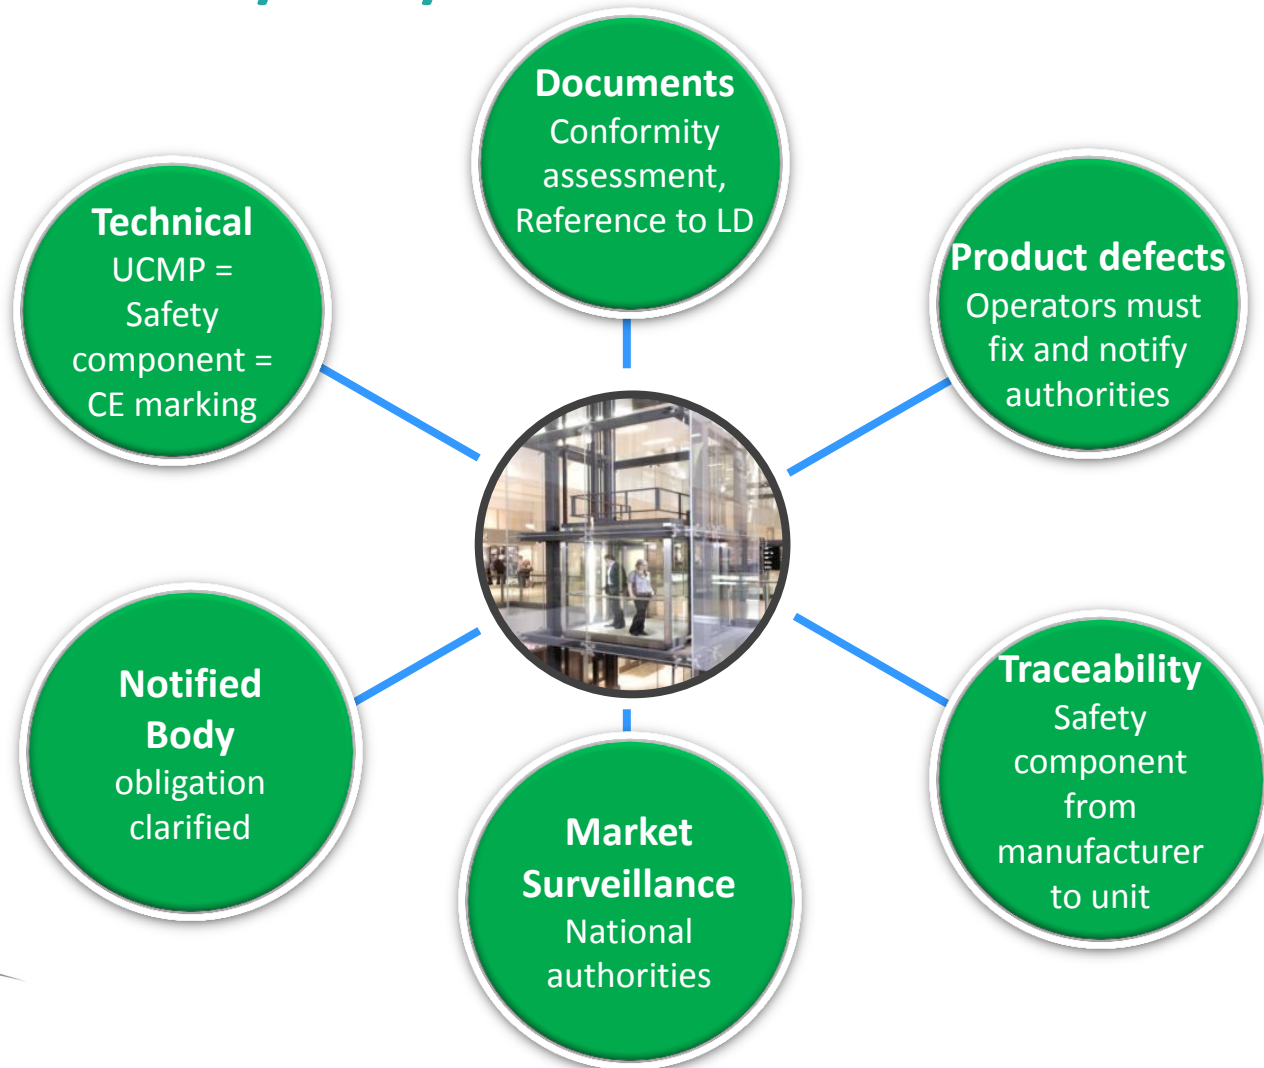

Economic operators

Installer (Lift)

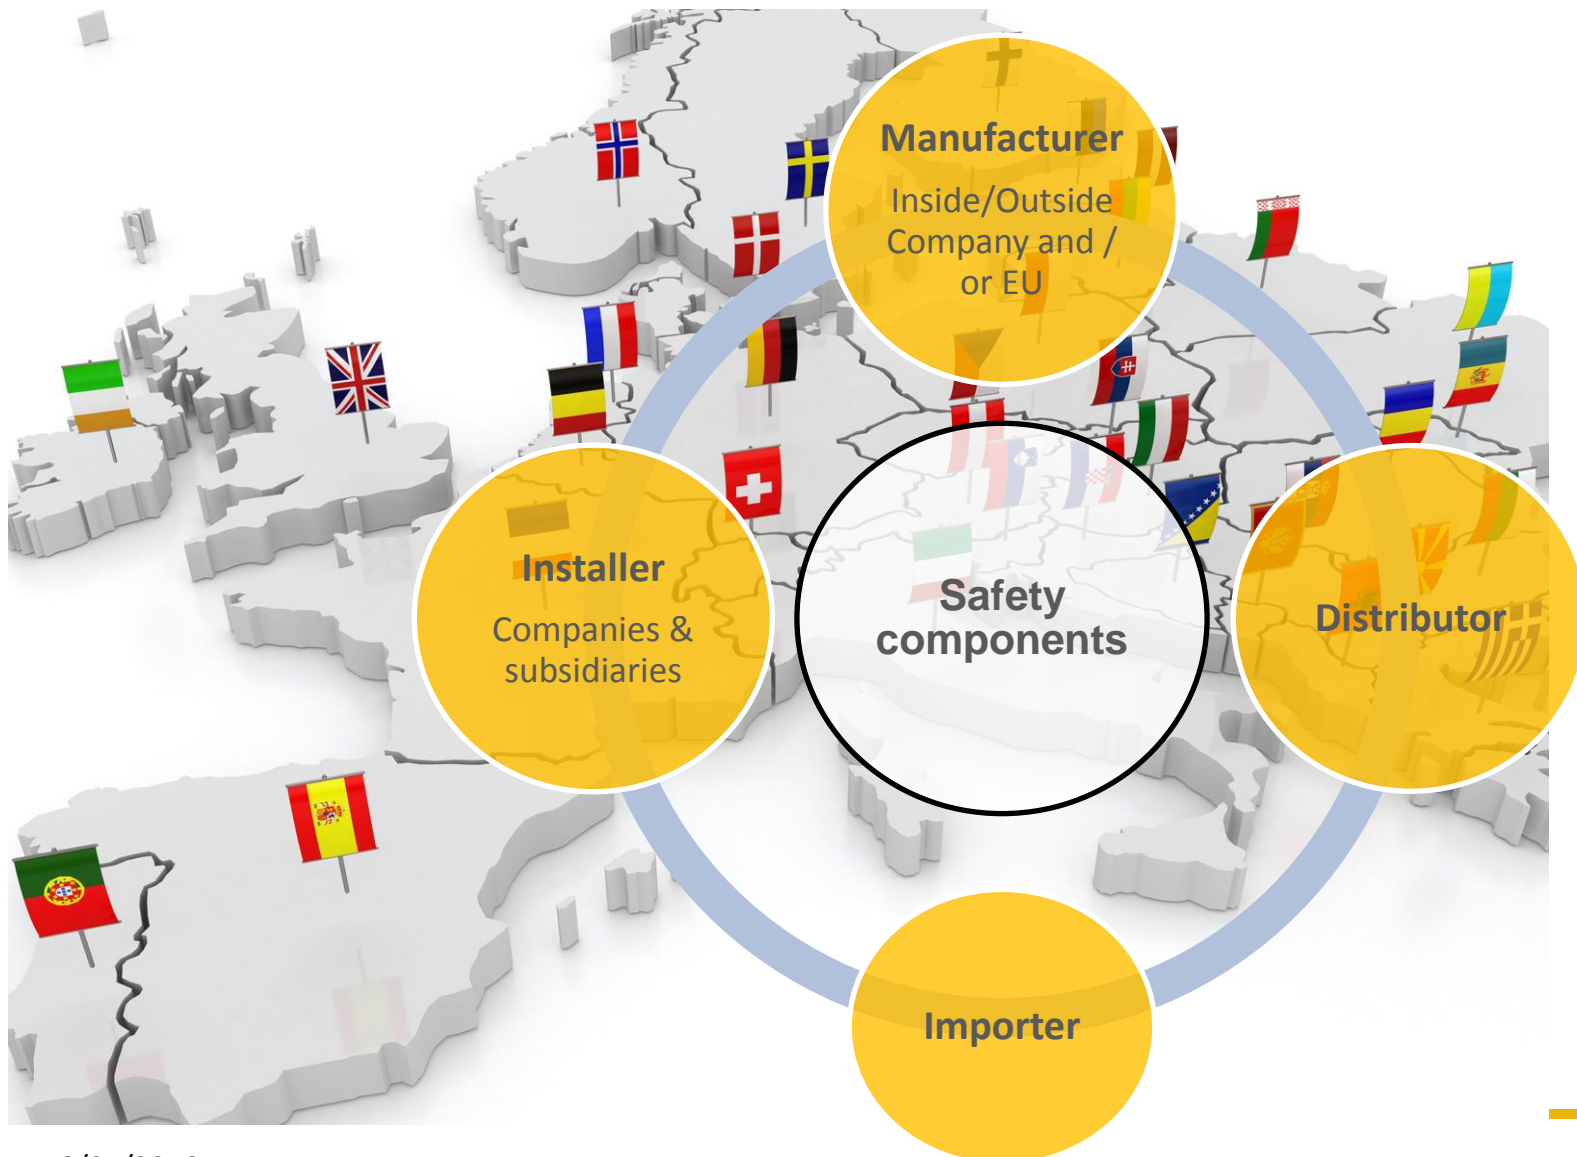

Manufacturer, Distributor, Importer of safety components

LD 2014/33/EU - KEY CHANGES

Economic operators

SAFETY COMPONENTS

List

Locking devices for landing doors

Overspeed governor

Safety gears

Ascending car overspeed protection means

Uncontrolled car movement protection device (UCMP)

Buffers (other than spring)

Electrical Safety Switches composed of electronic components

Devices against free fall on hydraulic lifts (e.g. rupture valve)

TRACING SAFETY COMPONENTS

Key information to collect

- The safety component shall be provided with: Name*, address of the manufacturer, type- or serial- or batch number
- When buying the component : Name, address of the supplier + safety component info (Name*, address of the manufacturer, type- or serial- or batch number)
- When selling that component : Name, address of the buyer
- When installing the component : identification of the unit on which it is placed and address of the lift
- When removing / replacing / scraping a safety component, keep the record

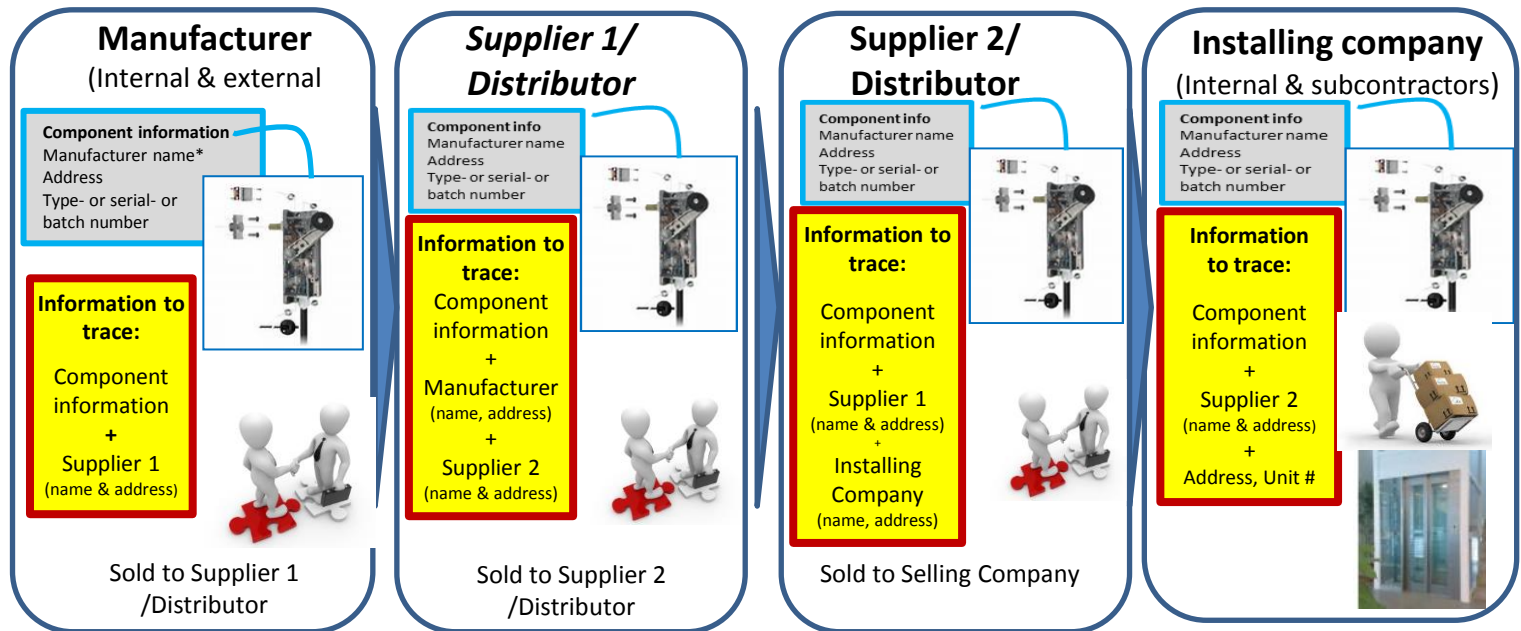

* Name or registered trade name or registered trade mark

TRACEABILITY of Safety components

Obligation: to be able to identify the supplier upstream and the customer downstream

What? Any safety component sold or installed

Who? Manufacturer, importer, distributor and installer of safety component

Deadline for transposition

April 20th 2016
For all Member States

But what is the transposition
status
in EU today?

LD 2014 National transpositions

12 countries already transposed the New Lifts Directive into their local law

Austria - since 2015/11

Slovakia - since 02.09.2015

Switzerland – since 25.01.2016

The Netherlands – since 2016/02

Bulgaria – since 2016/03

Sweden – 19/04/2016

Croatia – 19/04/2016

Estonia -19/04/2016

Malta – 19/04/2016

Lithuania – 19/04/2016

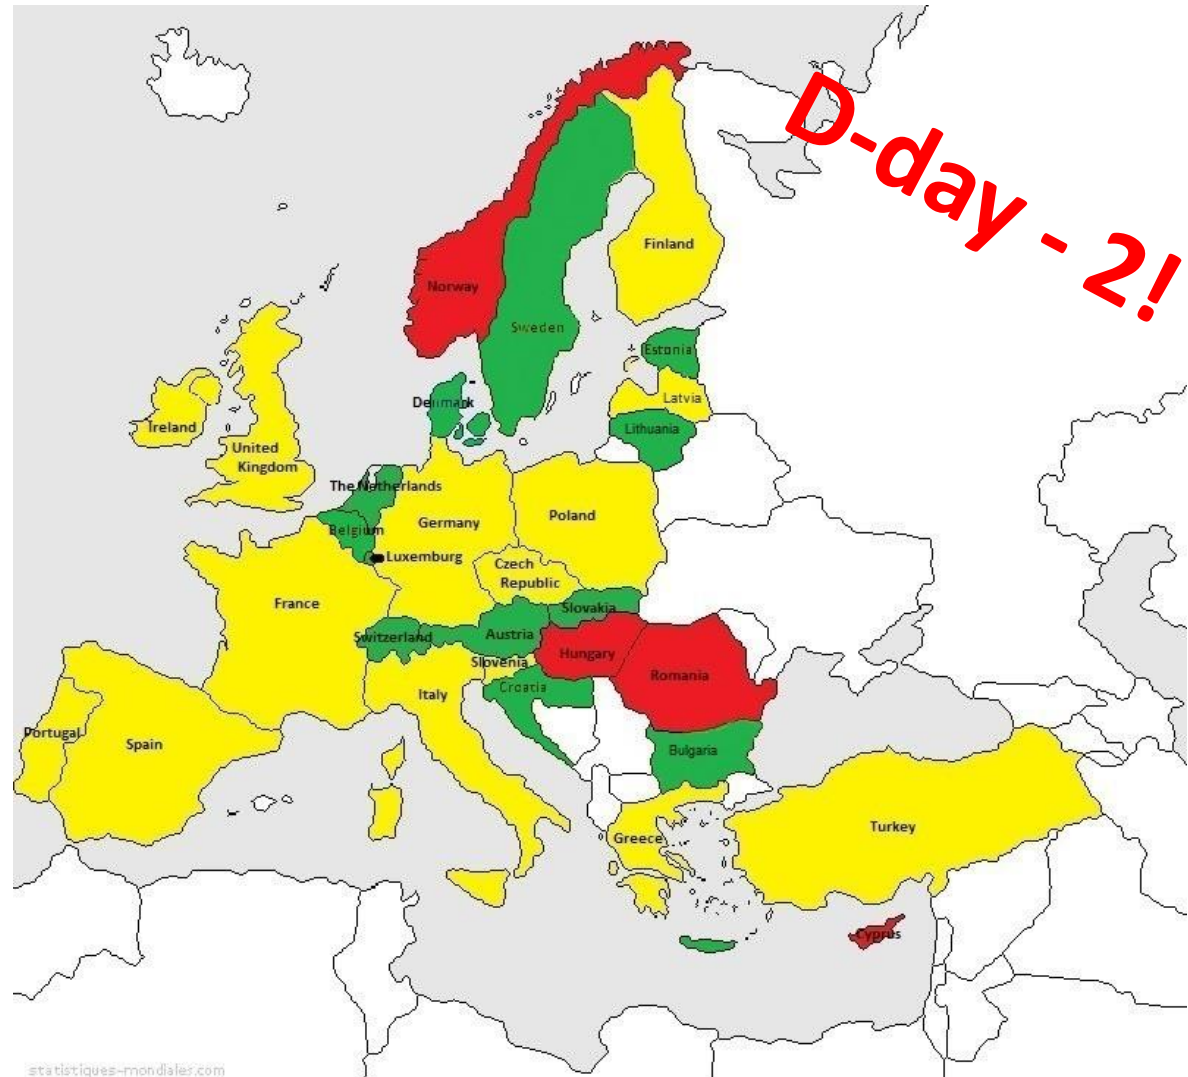

Denmark – 19/04/2016

Belgium – Today

Update 2016/04/18

-  No start/No information
-  Started, draft available or circulating
-  LD Transposition published

18/04/2016

at statistiques-mondiales.com

ELA GA 2016 - LD 2014/33/UE

Croatia	4
Denmark	1
Estonia	3
Lithuania	7
Malta	1
The Netherlands	1
Slovakia	10
Sweden	9

D-day - 2!

Update 2016/04/18

What to do as of April 20th 2016

If LD transposition achieved in your country

Apply your national regulations!

But

If LD transposition not published

What to do?

Transposition not published in your country

Is the New Directive applicable in my country if not transposed?

❖ Keep applying existing national regulation?

Or

❖ Apply the provisions of the new Directive?

The Directive is probably not applicable, the national regulations remain applicable until the new transposition

But in the spirit of the new Directive for the essential safety requirements and safety components

Transposition not published in your country

Then which essential safety requirements (ESRs) shall we meet?

That of the existing national regulations

And in this context, UCMP may have to be CE-marked too

A "CE" marking may continue to be affixed on a lift placed on the market after April 19th

Transposition not published in your country

And what about harmonized standards?

Which harmonized standard(s) shall be used?

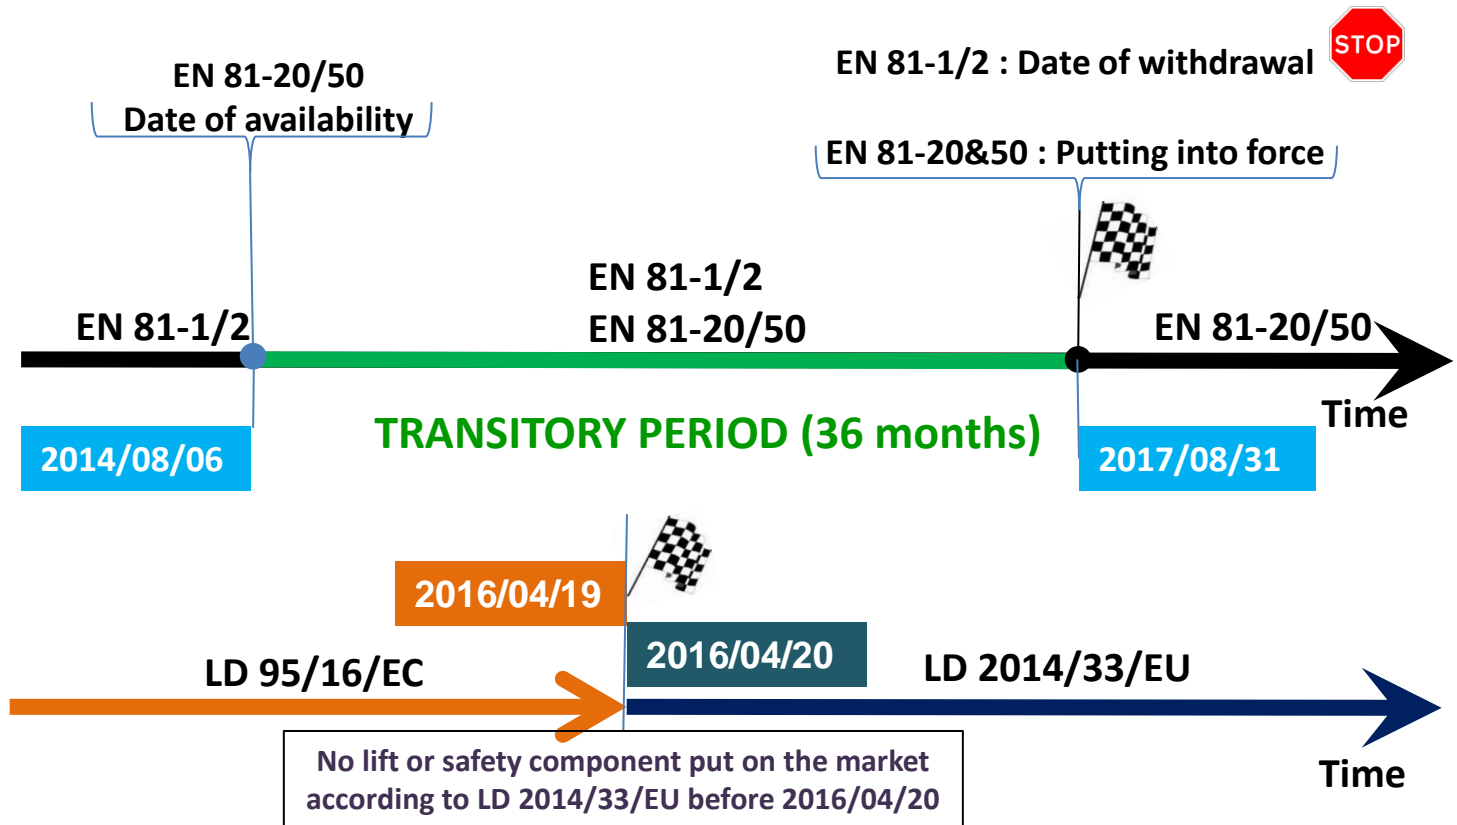

Standard(s) referring to the requirements of the old directive?

Or

Standard(s) referring to the requirements of the new directive?

EN 81-1/2 & EN 81-20/50 and Lifts Directives

Transposition not published in your country

Should we be required to use a notified body in accordance with the new Directive?

- Finding: There is no notified body, accredited to the new Directive in your country to date, due to no LD transposition
- The Directive is not implemented, it should not be imposed the use of a notified body under the new Directive
- Therefore it seems possible to keep on using your usual notified body (to confirm with him)
